Introduction of a Community Website

This monthly Newsletter has been produced and delivered entirely by volunteers for the last 36 years. It is delivered to 500 homes and 61 email addresses each month. Feedback shows that it is very much appreciated by all recipients. Paper and printing costs more than £100 each month financed by Aconbury, Little Birch and Much Birch parishes and advertising. Financial accounts are kept separately by the Treasurer of Little Birch Village Hall Management Committee.

As an experiment, a community website has been established to complement the Newsletter. To start with, it will be run by volunteers in a similar way to the Newsletter but it will allow greater involvement of contributors, provide space for more details and be more up to date as the information will be disseminated more quickly. It is envisaged that all interested clubs, societies and other organisations will be allocated space and be responsible for entering and controlling their own information – with guidance if necessary. Costs will be minimal and incorporated into the Newsletter account. The 3 parishes have endorsed this initiative.

The Newsletter would now like to hear from existing and potentially new contributors who would like to join in and /or receive more information. Please respond through 'birchesnews@gmail.com' or contact Jon Norris (07944 301250), John Bryant (01981 540316) or Mike Morley (01981 540510). Anyone can follow the development of the website by logging on to <http://aconburyandthebirches.org.uk>.

Please be assured that the printed and emailed Newsletter will continue in its present form.

Neighbourhood Development Planning

Are you interested in how the area should be developed in future? The Localism Act 2011 that came into force in 2012 gave parishes the right to prepare a neighbourhood development plan.

A neighbourhood development plan can establish general planning policies for the development and use of land in a neighbourhood, like:

- where new homes and offices should be built
- what they should look like

The plan can be detailed or general, depending what local people want. Neighbourhood plans allow local people to get the right type of development for their community.

Local parish councils are considering whether or not to prepare such plans, either individually or together. If you would like to know more about it and possibly get involved, come and hear a presentation by Herefordshire Council representatives at,

**Little Birch Village Hall

Well over 300 mourners packed into Much Birch
Church and the Community Hall on June 6th for
the funeral service of LES JENKINS. The service
was conducted by the Rev. Mark Johnson and

readings were given by members of the family.

Les was born at Lower Ruxton farm, King's Cagle, in 1935 and his brother, David, two years later. His parents took over the farm in 1929, which had been derelict for 3 years. The brothers attended King's Cagle School but Les would be more happy 'mooching off' to spend days playing in the fields. It was sometime before the teacher contacted his parents to find out what had happened to Les.

Les wasn't bothered about the 11+ examination and attended Ross Secondary Modern School and was more excited that he would be able to visit the bike shop on the way home to buy some new spanners.

As the brothers grew up, they were expected to help on the farm and it is probably how Les developed an interest in and an ability to sort out problems with farm machinery. He was a real old fashioned hands-on engineer. He was a good ploughman and won quite a few prizes as a young man at the Llanwarne Ploughing Matches and again over the last 10 years with his trusty Massey Ferguson tractor as shown on the front cover of the funeral order of service.

National Service caught up with Les when he was 18 and he served in the KSLI regiment mainly in Kenya at the time of the Mau-Mau rebellion. At the end of N.Service, his CO wrote "Jenkins has always worked extremely hard in carrying out responsible jobs and never grumbles at the amount of work expected of him. A pleasant character who is sober, trustworthy and clean in all his habits'.

On return to England, he went back to work on the farm before launching out in sales of agricultural machinery for Morris, Wargent and Wilde. He turned out to be a natural salesman, offering machinery at a keen price and following up with good service. He became very well known to county farmers and later in the surrounding counties and into Wales.

In the late 1950's, he met Jean at the Park Hall Ballroom in Wormelow and they soon began courting. They were married at Llanwarne Church in 1960 and at first lived at Ruxton before moving to the Gresleys in Ross and then on to Counties View, Much Birch in 1969. Jean was an accountant at Little and Co. in Ross but became a full time mum when Malcolm was born in 1961 followed by Paul in 1964. The family attended Much Birch Church where Jean became Treasurer and Les lending a hand whenever something

practical had to be done.

The boys both attended Much Birch School under Noel Lewis before Malcolm moved on to Ross Grammar School and Paul, Hereford Cathedral School. Malcolm trained to be an architect and Paul, an accountant, making both parents very proud of their achievements.

Les continued his machinery sales but also set up a sideline with lawnmowers and rotavators, which led to him taking the self-employed option into this new phase of his life. After both sons were married, the family grew with the first of 3 grandchildren, Christopher, then Catherine and lately, Charlotte.

In 2006, Jean was diagnosed with terminal cancer and died later that year. This left a huge gap in Les's life after 45 years of marriage and it was tough going for him over the next few years as the boys were living long distances away. He often visited them at weekends but in was a long journey to Walton on Thames to see Malcolm and his family.

In addition to playing Whist, Les liked to play indoor bowls at Wormelow and in the summer at St. Martins, then situated behind the old Greyhound pub on the Belmont roundabout. Les kept up with lawnmowers until some 2 years ago.

Les met Pat Powell, herself a widow, in 2008 and they immediately hit it off. They played whist regularly, enjoyed Evergreen trips and supported church and other local activities. To say Les liked his food is an understatement and he was always first in the queue whenever refreshments were served at any function. He was always willing to help at the combined Churches fetes in the 1970's and 80's, to mow the churchyard grass, bring in the hay or find that spare part for a lawnmower that needed an urgent repair. He was a real leg-puller, had a fund of stories and laughed heartily at hilarious incidents that were recounted with the late John Brooke, John Roberts and other friends.

It was a great shock to the whole community that after an Evergreen outing to Cheltenham and a Cotswold garden when he was in a real jovial mood and playing whist at Little Birch Hall with Pat that evening, Pat found he had passed away in his sleep the following day. There are so many memories to cherish and the many friends who gathered for the funeral showed just how high a regard in which he was held throughout Herefordshire and beyond.

Fortunately, Malcolm and Paul and their families

had visited Les 2 weekends prior to his passing and they had Sunday lunch together at the Pilgrim Hotel.

Les will be sorely missed by Pat, Malcolm and Paul and their families to whom we send our deepest sympathies.

It was also a great shock to the community to hear of the death of Hilary Gould of Parish Lane on 4th. June. She had been diagnosed with Motor Neurone Disease at the end of the winter but her condition rapidly deteriorated in the last few weeks. Hilary was born in Brecon on May 17th 1946, to Gladys and Kenneth Jones, who ran a hairdressing salon in the town. She was the youngest of 3, having 2 older brothers, Colin and Alan. The family lived over the shop until 1953 when they moved to a large house still in Brecon but overlooking the Brecon Beacons.

Her father was one of 7 children and her mother one of 9 and so there were many uncles, aunts and cousins always visiting the family.

Hilary attended Mount Street primary school and later Brecon Girls Grammar School. At the age of 14, she won the Brecon May Queen competition.

She did well in A-level exams and was able to follow her brother Alan to Bristol University to read German and French. She enjoyed travel throughout her life and her language skills enhanced her holidays on the Continent. As a student, she enjoyed exchange trips with German and French families and has kept in contact with them ever since.

On graduating, her father gave Hilary a white Triumph Herald convertible, which proved a real 'head turner' as she drove around Brecon and male drivers always gave way at road junctions.

Hilary then went on to Cardiff University to train as a teacher and qualified with distinction. Whilst doing some teaching practice, a 5 year old boy asked "What is electricity? That's an interesting question, Hilary replied. We must all go home and ask our parents and we'll talk about it tomorrow. That evening, Rob received a frantic phone call and spent a long time in explaining to a non-science teacher.

Hilary's first appointment was at the Bridgewater Girls Grammar School teaching French and German. Her main problem was trying to eradicate the 'Zumerzet' burr from spoiling conversational foreign languages.

Hilary married Rob in March 1970 and they lived in a village near Taunton. Each morning, their slumbers were disturbed by a demented crow, which attacked its own reflection in the brightly polished hubcaps on their car.

In 1972, Hilary's father's health was failing and so Hilary and Rob moved to Blakemere to be nearer her parents. James was then born on Sep. 1st. that year and Caroline followed in 1976.

The family moved to Parish Lane, Little Birch in 1979 and as soon as Caroline was old enough to go to school, Hilary was persuaded to apply for teaching posts and after some supply work was taken on by the Cathedral School to teach A-level French and German. It was not long before she was asked to teach full time. She rose to become Head of the German dept. and later, Head of Modern Languages. In addition to teaching, Hilary also helped her students to apply for University places and helped many to find a future career path.

Hilary began to be involved in fund raising activities both at the school and in the community. Few will forget the concert that she arranged at the Railway Club with the Abertillery Male Voice Choir and the 'Compost Heap'. It raised a lot of money for the Village hall and Church funds.

On retiring in 2006, Hilary lost no time in restarting the annual pantomime, which had lapsed for several years. She began by directing 'Treasure Island' and followed up by writing and directing her own versions of Snow White, Robin Hood and Up Little Birch. She took great delight in indulging her creative skills and involving whole families in these productions.

Hilary then cared for her growing family by looking after Ronan and later, Ella, several days a week. She also travelled to Reigate to look after Caroline's son, Lucas, and was there helping again when granddaughter, Zanda, was born.

Hilary and Rob were able to have a holiday on the Island of Arran with their friends, Phil and Beccy, a month or so ago which she thoroughly enjoyed.

She died peacefully in her sleep in hospital on June 4th.

Her funeral service in Little Birch was attended by over 100 family, friends and ex colleagues. She will be sadly missed by a very wide circle of friends and we offer to Rob, James and Caroline and their families our sincere condolences.

Donations for the Motor Neurone Disease Association amounted to £750.

Overnight on Wednesday 12th/Thursday 13th June an attempt was made to steal two garden troughs that were in the front garden of a property. Due to previous thefts at the property, the troughs had been bolted to the ground and wall, and although the attempt was unsuccessful, damage was caused to the wall. Incident ref **0253S 130613**

Cusop

Sometime between 11th May and 15th June a garden shed in the rear of a private house was entered and a Stihl chainsaw was stolen. The shed had two broken windows that had been boarded up, and the boards had been forced off and the offenders gained entry that way. It is believed that the offenders approached the shed across fields at the rear rather than along the drive to the property past the house. Incident ref **0393S 200613**

Haywood

A Stihl strimmer was stolen from the drive of a property sometime between 10am and 3pm on Monday 17th June. The strimmer was left on the ground near a van which was parked on a private driveway, some distance from the road. During the day a young male in a white van had called at the property asking for work, but unfortunately no further details of the van are known. The male was described as in his mid 20's and he had a female with him and a young child, about 12 months old. Incident ref **0151S 180613**

Kingstone

At about 5.45pm on Saturday 15th June, a male walked up the long drive to a property and through

the front garden and through a side gate, making no attempt to ring the doorbell. By the time the occupant had got outside, the male had gone. He is described as mixed race, approx 30-40 years of age, 6' - 6'4", stocky with short/balding hair. He was wearing a jacket with a t-shirt underneath; the caller didn't see what sort of trousers he was wearing. Incident ref **0507S 150613**

Longtown

Overnight on Tuesday 18th/Wednesday 19th June a Honda lawnmower was stolen from a locked shed at the end of the garden of an isolated property. The lock to the shed, which is adjacent to the road, had been forced off. Incident ref **0180S 190613**

Madley

More damage has been caused to the tennis pavilion in the recreation ground, this happened between Sunday 16th and the evening of Tuesday 18th June; the glass in the front door has been cracked but entry has not been gained. Incident ref **0167S 210613**

Peterchurch

Between 12.30am and 11am on Thursday 13th June an open barn at a property in the village was entered and a red Lawnflight ride on mower, a red Mountfield petrol mower and a green plastic fuel can containing fuel were stolen. Incident ref **0094N 130613**

Another property nearby also had a shed broken into and a Bosche cordless drill and a battery charger unit were stolen. The owner is unsure exactly when the theft took place, it was sometime between Wednesday 12th/Saturday 15th June, but it is very likely it happened at the same time as the above incident. Incident ref **0421S 200613**

Five youths from the village have been identified as having been responsible for some minor damage at the primary school. The matter has been dealt with by way of Community Resolution; they have all been to the school individually with their parents and apologised to representatives of the staff and governors.

Rowlestone

Sometime between 9am on Tuesday 18th and 9.30am on Thursday 20th June a Mitsubishi L200 P307CDF was stolen from a barn on a farm. The vehicle hasn't been driven for a couple of years, and was visible from the road. The owner had been approached on several occasions by 'not very nice people' (her words, not mine!) trying to buy it but she had no wish to sell it. Incident ref **0317S 200613**

Wormbridge

A concrete shed has been broken into sometime overnight on Tuesday 18th and Wednesday 19th June. A padlock has been forced off the door; it is unknown at this stage what has been taken. Incident ref **0222S 210613**

Cold calls - Please take note! Information has been received by Police about a company which targets the elderly and vulnerable members of society with unsolicited telephone calls. The calls may be from someone purporting to be from a Crime Prevention company and are offering an intruder alarm system. Sometimes there is a suggestion that the company is responding to a recent crime; at other times there is a suggestion they are working with or for the local police service. In all cases the company will cold call the householder and offer a 'free' alarm system. The householders will invariably be elderly.

The company employ cold calling by telephone as a method of targeting older and vulnerable people. The caller may claim to be from a Crime Prevention Research company or something similar and offer an intruder system and/or advice on such systems or personal security. They could say they are responding to a crime or an incident. If accepted they then progress to using hard sell tactics to sign people up to monitoring contracts.

The prices quoted for alarm systems vary from free to a small selection of addresses as an advertisement to other properties to £5000/£6000 or more. If the system is offered free of charge, there is an administration fee.

The companies are not registered with any of the Security Industry Regulatory organisations. The public are advised to research any company they are planning to do business with before they arrange a sales Visit.

To avoid unsolicited sales calls and mail in the future members of the public should remove their personal details from any sales lists. This can be done by -

- Registering with the Telephone Preference Service - This is a free service. Registration can be made on line or by telephoning 0845 070 0707. Further details can be obtained from www.tpsonline.org.uk
- Registering with the Mailing Preference Service -

The Mailing Preference Service supports the right to choose the mail you wish to receive. Registration to this free service can be made on line or by phone to 0845 703 4599. Further details can be obtained from www.mpsonline.org.uk or 0207 291 3310

- Electoral registers - Electoral registers are updated each autumn and are lists of all the names and addresses of everyone who is eligible to vote. There are two editions of the registers; a full register which is used for elections, preventing and detecting crime and checking applications for loan or credit and the edited register which is publicly available for marketing and any other commercial activities. When renewal notices arrive, consider only registering for the full register by opting out of the edited register. This is done by entering a tick in the 'edited register' box. Further information can be found on www.direct.gov.uk/en/governmentcitizensandrights

Catalytic Converter Thefts - A document will be displayed upon the Community website giving details of a kit that can be purchased on line to mark catalytic converters.
